

BIBLIOGRAPHY OF SELECTED PUBLICATIONS IN PUBLIC HEALTH LAW

One measure of the burgeoning interest in public health law is the rapid growth in publications in the field. The CDC Public Health Law Program began compiling this bibliography in 2006 as a resource for policy makers, practitioners, researchers, students, and educators. It contains citations to articles, books, and book chapters—treating a wide spectrum of subjects and issues in the field—from sources familiar to Program staff.

We invite your suggestions for additions to make the bibliography more comprehensive and systematic. Please e-mail them to Ms. Andrea Hines, CDC Public Health Law Program, at AHines@cdc.gov. For each publication please include author name(s), title of the publication, and details about the journal and issue or the book publisher.

We also welcome your suggestions for ways to make the bibliography—and other information available from this website—maximally useful to you and to colleagues throughout the public health law community.
